

JOINT CYBERSECURITY ADVISORY

Co-Authored by:

Scattered Spider

SUMMARY

The Federal Bureau of Investigation (FBI) and Cybersecurity and Infrastructure Security Agency (CISA) are releasing this joint Cybersecurity Advisory (CSA) in response to recent activity by Scattered Spider threat actors against the commercial facilities sectors and subsectors. This advisory provides tactics, techniques, and procedures (TTPs) obtained through FBI investigations as recently as November 2023.

Scattered Spider is a cybercriminal group that targets large companies and their contracted information technology (IT) help desks. Scattered Spider threat actors, per trusted third parties, have been known to utilize BlackCat/ALPHV ransomware for extortion and have also been known to utilize BlackCat/ALPHV ransomware TTPs.
