CHARLESTON, S.C. --

There may not be casino boats cruises from North Charleston as soon as expected.

The Post and Courier of Charleston reports Wednesday that delays like setting up a parking lot to handle customers could mean the cruises won't start until February at the earliest. Officials had originally hoped to be cruising by January.

Palmetto Casino

Cruz Inc. and Diamond Casino Cruz II Inc. applied for operating licenses after North Charleston City Council approved the cruises earlier this year.
