

A single masked gunman held up the Bellagio casino in Las Vegas getting away with a \$1.5 million in gambling chips.

According to authorities the suspect wore a motorcycle helmet when he entered the famed casino around 4:00 a.m. local time on Tuesday.

Apparently the gunman walked up to a craps table and pulled out a gun demanding money. Based on the video

he walked to the valet section of the hotel, where he got his motorcycle and took off.

Question: How is the criminal going to cash in the Bellagio chips without being suspicious?
